

AJIN K

Bengaluru, Karnataka | +91 6363356169 | ajink7023@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven BCA graduate with hands-on experience spanning product support, data analysis, client-facing operations, and full-stack development. Proficient in Python, SQL, Power BI, and REST APIs, with a strong foundation in data engineering concepts, system troubleshooting, and technical documentation. Proven ability to independently resolve issues, identify data discrepancies, communicate technical findings to non-technical stakeholders, and collaborate cross-functionally to deliver measurable outcomes. Passionate about continuous learning and applying both theoretical and practical knowledge to drive business value in technology-driven environments.

CORE COMPETENCIES

- SQL & Database Management (MySQL, Oracle, MSSQL)
- Data Analysis, EDA & Discrepancy Identification
- Python: Pandas, NumPy, scikit-learn, matplotlib
- Data Visualization: Power BI, Tableau, Plotly
- Product & Technical Support – SLA Adherence
- Web Development: Flask, Django, Node.js, REST API Concepts
- Report Preparation & MIS Documentation
- Client Communication & Stakeholder Management
- Cross-functional Collaboration & Team Player
- AI Tools: ChatGPT, GitHub Copilot, DeepSeek

EXPERIENCE

Product Specialist

Linways Technologies Pvt. Ltd. — Bengaluru, Karnataka

Jan 2026 – Present

- Serve as the primary point of contact for enterprise platform users, independently triaging and resolving technical issues, and escalating critical cases with thorough documentation to ensure zero SLA breach.
- Review system data for accuracy, identify and flag discrepancies, and coordinate with product and engineering teams to implement timely corrective actions.
- Analyze support logs and recurring issue patterns to recommend process and product improvements, proactively updating knowledge base documents to reduce resolution time.
- Prepare and distribute structured reports, onboarding guides, and status updates for multiple institutional clients, ensuring accuracy and on-time delivery.
- Conduct requirement analysis with stakeholders to map business needs to platform capabilities, acting as a bridge between clients and the product/engineering team.
- Collaborate closely with senior professionals across product, engineering, and data functions, continuously broadening technical knowledge and domain expertise.

Billing & Records Assistant

Aishu Enterprises — Bengaluru, Karnataka

Jun 2025 – Dec 2025

- Maintained precise records of sales, purchase, and inventory data using Microsoft Excel, ensuring 100% data integrity and enabling fast, reliable retrieval for business decisions.
- Prepared weekly and monthly MIS reports with 100% on-time delivery, supporting operational oversight and management decision-making.
- Identified data discrepancies and stock anomalies proactively, escalating issues to management with structured documentation and recommended corrective actions.

Python Intern

Upskills Academy (Online) —

Jan 2025 – Mar 2025

- Developed a production-ready quiz platform with user authentication, randomized question logic, and automated scoring using Python, MySQL, and HTML, applying theoretical knowledge in a practical end-to-end build.
- Optimized SQL database schema and query execution to improve data retrieval performance; performed systematic QA testing and documented all defect resolutions.
- Collaborated in a team environment to debug features and implement UI/UX improvements, building structured problem-solving and communication habits.

Data Science with Python Intern

DevSkillshub (Online) —

Jul 2024 – Sep 2024

- Executed end-to-end data workflows: cleaning, preprocessing, anomaly detection, and exploratory data analysis (EDA) on real-world datasets to ensure data quality and reliability.
- Designed Power BI and Python-based dashboards to present business insights in clear, stakeholder-ready visual formats, supporting data-driven decision-making.
- Documented analytical methodologies and findings to support reproducibility, knowledge transfer, and continuous improvement of data processes.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C Language

Databases & SQL: MySQL, Oracle Database, MongoDB, Microsoft SQL Server – querying, schema design, data integrity

Data & ML: Pandas, NumPy, scikit-learn, EDA, statistical modeling, data cleaning, feature engineering

Visualization: Power BI, Tableau, matplotlib, seaborn, Plotly

Web & APIs: HTML, CSS, Flask, Django, Node.js, REST APIs, JSON, XML, Postman (exposure)

Microsoft Suite: Excel (advanced), Word, PowerPoint – reports, MIS, documentation, presentations

Tools: Git & GitHub, VS Code, Jupyter Notebook

AI Tools: ChatGPT, GitHub Copilot, DeepSeek – data synthesis and automation

Cloud Awareness: SaaS, IaaS, PaaS environments

PROJECTS

Kairos'25 – College Fest Web Application | React.js, Node.js, Express.js, MongoDB | [Live Link](#)

- Collaborated cross-functionally to build and deliver a real-time full-stack web application with event scheduling, live data management, and streamlined user registration under a tight deadline.

Quiz Platform – Online Assessment System | Flask, MySQL, Python, HTML, CSS, JS | [Live Link](#)

- Built and deployed a full-featured data-driven assessment platform with user authentication, randomized question generation, automated scoring, and SQL-optimized data retrieval; performed end-to-end QA testing and documented all resolution steps.

CERTIFICATIONS

- PyNum AI Developer Certification – Python Academy (NumPy, Pandas, data analysis pipelines)
- Data Science Job Simulation – British Airways (data cleaning, EDA, discrepancy handling, business insights)
- Data Visualization Job Simulation – Tata (Power BI, business scenario framing, stakeholder communication)
- Project Manager Job Simulation – Siemens (KPI tracking, MIS reporting, cross-functional project delivery)

EDUCATION

Bachelor of Computer Applications (BCA)

ST Pauls College, Bengaluru, Karnataka

Aug 2022 – Jun 2025

- Strong foundation in programming, data structures, databases, software development, and emerging IT technologies – with hands-on project and practical application experience.
- Convenor (2024–25) & Vice President (2023–24) – Pegasus Association (technology & innovation club), ST Pauls College
- Led end-to-end planning and execution of inter-collegiate technical fests and seminars, coordinating logistics, speaker sessions, and on-ground operations for 700+ participants from 40+ colleges – demonstrating large-scale event management, cross-institutional leadership, and real-time issue resolution.
- Designed and conducted the IT Manager event – a simulated multi-round corporate recruitment challenge (aptitude, group discussion/debate, topic presentations, stress interview); evaluated participants on communication, decision-making, and performance under pressure.
- Awarded Best Outgoing and Most Deserving BCA Student (2022–25); Runner-up in IT Manager and Calculus Cosmos events at multiple inter and intra-collegiate fests.

ADDITIONAL INFORMATION

Languages: English & Hindi (fluent, read/write); Malayalam (native); Tamil & Kannada (conversational)

Flexibility: Open to rotational shifts, hybrid/on-site work, and client-facing engagements as required

Strengths: Independent problem-solver, proactive communicator, quick learner, high technical curiosity

Location: Bengaluru, Karnataka – immediately available
